

ALOE ESSENCE MAN nº 7

With Aloe Vera

This perfume in cream deposits into your skin a pleasant smell, avoiding the allergic reactions that a traditional perfume could cause. Also, as it has a hydrating base, the perfume is retained for longer; since when a perfume is applied on dry skin, the perfume evaporates very quickly.

Aloe Essence Man nº 7 is a smelling fragrance for men of the Spiced Woody family. It starts with a sparkling fruit cocktail. The heart is characterized by the accordance between the spicy mixture of cinnamon and cloves. The base, warm and masculine, is composed of precious woods, dry amber, and musk.

It reflects a sophisticated and warm fragrance where it exploits the elegance, masculinity, and security that man carries to the maximum. Without a doubt it is the final touch to achieve your day to be a successful day.

CHARACTERISTICS:

- Free from alcohol and preservatives.
- Convenient size to carry with you.
- Essence elaborated in France.
- Jar made of natural Bamboo.

MODE OF USE:

Apply the perfume with your fingertips on those areas of the body where there are beats (behind your ears, on your wrists, on the collarbone, behind the elbows, etc).

On those areas the body temperature is higher, and the perfume evaporates slowly.

DID YOU KNOW THAT...?

Solid perfume lasts longer than liquid, as its formulation without alcohol does not evaporate and it is more concentrated.
