

# ALOE ESSENCE WOMAN n° 5

With Aloe Vera

This perfume in cream deposits into your skin a pleasant smell, avoiding the allergic reactions that a traditional perfume could cause. Also, as it has a hydrating base, the perfume is retained for longer; since when a perfume is applied on dry skin, the perfume evaporates very quickly.

**Aloe Essence Woman n° 5** is a smelling fragrance for women of the Oriental Chypre "Gourmand" family. It opens with fruity top notes as blackcurrant and peach.

The heart reveals a sensual and enveloping bouquet of flowers such as jasmine, orange blossom and rose.

The base is "gourmand" thanks to the symphony of the Tonka bean, praline, and patchouli. Simplicity, elegance, and happiness reflect the essence of this perfume which shows us that the beauty of life is found in the way how each one of us chooses to live it.

## CHARACTERISTICS

- Free from alcohol and preservatives.
- Convenient size to carry with you.
- Essence elaborated in France.
- Jar made of natural Bamboo.

## MODE OF USE:

Apply the perfume with your fingertips on those areas of the body where there are beats (behind your ears, on your wrists, on the collarbone, behind the elbows, etc).

On those areas the body temperature is higher, and the perfume evaporates slowly.

## DID YOU KNOW THAT...?

Solid perfume lasts longer than liquid, as its formulation without alcohol does not evaporate and it is more concentrated.
