

LIP BALM

With Aloe Vera

The **EXIALOE LIP BALM** protects, hydrates, and nourishes. It regenerates cracked and flaked lips.

ACTIVE INGREDIENTS

Macadamia Oil: Its composition is especially rich in oily and linoleic acids plus sterols which confers **softness and calming** qualities. It is a soft, fluid, and light oil that provides the nourishing necessary elements to preserve a luminous and healthy skin.

It works as an antioxidant and prevents the deterioration of the cell membranes. It is a lubricant of the skin of easy absorption and useful to treat burns produced by the Sun and with the healing of the wounds.

Vitamin F: The main function of this vitamin is to **repair** and create tissues in the body. It is recommended to treat problems of dryness of the skin, eczemas, and healing.

Jojoba Oil: It works as an emollient forming a film on the skin, avoiding the elimination of water, and favouring its **hydration**.

Beeswax: It provides protection due to its quality of being highly hydrophobic. It repels water, forms a film on the skin and waterproofs it, giving consistency and **protection** to it against the action of the external agents that can damage it. It has **anti-inflammatory and healing** qualities.

Cocoa Butter: Rich in antioxidant components, it **hydrates** the skin and protects it against the external agents.

Allantoin: It accelerates the **healing** of wounds and the cutaneous regeneration.

Aloe Vera 20%: It stimulates cell growth and healing. It **hydrates** and **softens** the skin.

Safflower Oil: It helps to **rejuvenate** damaged skin so dry skin becomes soft, hydrated, and healthy.

MODE OF USE:

Apply the lip balm several times during the day.

It is recommended that you also apply it before going to bed so the product can hydrate and protect your lips during the night.

Besides of a good hydration, if you exfoliate your lips once a week...you will see how soft and attractive lips you will end up with!

5 ml package (ref.1190)

DID YOU KNOW THAT...?

Lips are one of the most sensitive parts of the face.

Cold weather and dry wind, typical of the winter season, make them to be dry and cracked.
