

HAND CREAM

With Aloe Vera

The EXIALOE **hand cream** is ideal to use daily as it favours the care and protection of the hands, helping to avoid the problems of dryness, flaking or premature ageing.

It is nourishing and protective of the external aggressions. Its light and of quick absorption texture, leaves the skin soft and hydrated.

ACTIVE INGREDIENTS

Beeswax: It has hydrant qualities that favour the water retention through the skin.

Allantoin: It has a regenerative function very useful in cases of sensitive skins.

Aloe Vera (10%): It confers a calming and softening effect, apart from highlighting its healing and nourishing qualities.

Musk Rose: It is rich in essential fatty acids that regenerate and protect the skin.

Avocado Oil: It highlights for being one of the most nourishing oils for the skin due to its protective and regenerative effect being very beneficial for cracked and dry hands.

Natural origin Vitamin E: It works as an antioxidant delaying the ageing of the skin.

MODE OF USE:

Apply a small quantity of **cream** on the **hands** and massage till its full absorption. Use it daily, as often as it needed it.

💡 You can combine it with Argan Oil to strengthen your nails and cuticles.

And if you exfoliate your hands once a week, you will see how pretty and soft hands you will have!

100 ml package (ref.1175)
