

FACIAL CREAM

With Aloe Vera

The **Exialoe Facial cream** is great for all types of persons and ages, including for sensitive skins.

It provides an incredible freshness to the skin, leaving the skin **smooth, soft, luminous, and radiant**.

It can also be used as an excellent cream to protect hands from eczemas and chilblains, leaving them soft and hydrated.

There is no evidence of allergies due to a continuous use.

ACTIVE INGREDIENTS

Aloe Vera: Due to its content in **Aloe Vera (20%)**, it hydrates and nourishes the skin deeply while protects it and softens it.

Vitamin E: As it has natural and non-synthetic Vitamin E, it allows to work as an **antioxidant** against free radicals, responsible of the cutaneous ageing. Besides, such vitamin favours the preservation of the product.

Sunflower seed Oil: It has a great antioxidant and anti-inflammatory capacity.

Royal Jelly: It helps against wrinkles while it improves blood flow and the **elasticity of the skin**. Therefore, it works as a stimulant and it has a **rejuvenating action**. Besides, it regenerates the conjunctive fibres, providing flexibility and it also has a great natural antiseptic power against cutaneous bacteria causers of allergies and infections.

Jojoba Oil: It works as emollient forming a film on the skin, avoiding the elimination of water, and favouring its **hydration**.

Wheat Germ Oil: It is a powerful natural antioxidant and antiaging. It has a high content in Vitamin F and Vitamins from the B group.

MODE OF USE:

Apply the Exialoe Facial Cream keeping the fingers flat, pressing softly waving from inside in to outside out to improve blood flow.

💡 Do not forget neck and neckline. These parts of the body are as important as the rest of the face and they can be hydrated in the same way.

50 ml tin (ref.1145)

DID YOU KNOW THAT...?

Dehydrated skin can be more prone to developing expression lines and wrinkles. If it is not properly nourished, its protective barrier is weakened, becomes dry and finally causes a loss of collagen which leads to an acceleration of ageing.
