

MOISTURISING CREAM

With Aloe Vera

It has **25% of Aloe Vera** that stimulates cell growth, favouring the hydration, softness of the skin and its rejuvenation. Besides, it provides an antiseptic action that collaborates with the elimination of dead cells and wastes that damage the face, avoiding the formation of black spots and pimples.

This is a hypoallergenic cream.

USES AND QUALITIES

Vitamin E: Due to its qualities against free radicals it is highly effective delaying the ageing of the skin and increasing its resistance against the damaging effects of the sun.

Musk Rose: It has essential fatty acids that help to avoid the premature ageing of the skin.

Avocado Oil: Rich in vitamins, fatty acids, proteins, and minerals. It works against ageing due to its great content in Vitamin E, it has great hydrant and regenerative power of the skin.

Almond Oil: With vitamins, minerals, proteins, and beneficial fatty acids for the skin. It reduces inflammation, calms cutaneous irritations, hydrates, and softens all types of skins.

Allantoin: It favours the natural regeneration of the skin.

Sunflower seed Oil: It has great antioxidant power.

It is to be highlighted its composition in **Lactil**, a watery solution of moisturisers that substitute the natural hydration factor of the skin that can easily be lost with soaps, providing therefore, an excellent hydration and elasticity.

MODE OF USE:

Apply the Exialoe hydrant cream on the skin through a soft massage. This helps to stimulate blood flow and it favours the absorption of the product.

50 ml tin (ref.1910)
