

MOISTURISING PLUS CREAM

With Aloe Vera and Macadamia Oil

It has **25% of Aloe Vera** that stimulates cell growth, favouring the hydration and softness of the skin and its rejuvenation. Besides, it has an **antiseptic action** that collaborates with the elimination of dead cells and wastes that damage the face, avoiding the formation of blackheads and spots.

It is a hypoallergenic cream.

QUALITIES

Natural Vitamin E: Due to its qualities against free radicals it is very effective against the ageing of the skin, it increases its resistance against the damaging effects of the sun.

Musk Rose: It has essential fatty acids that help avoiding the premature ageing of the skin.

Macadamia oil: It helps to regenerate cells, so it prevents the appearance of wrinkles and other signs of the skin ageing. Besides, it is antioxidant, emollient, and a source of fatty acids so it is very hydrant.

Avocado oil: Rich in vitamins, fatty acids, proteins, and minerals. It works against ageing due to its great content in vitamin E and its hydrant and epidermis regenerator power.

Allantoin: It favours the natural regeneration of the skin.

Sunflower seed oil: It has great antioxidant and anti-inflammatory capacity.

Lactic acid: It is an aqueous hydrant solution of wetting agents that substitute the natural hydration factor of the skin that can easily be lost with soaps providing therefore, hydration and elasticity.

It has ingredients that soften the skin, increasing the flexibility of it, retaining the humidity in the skin creating an occlusive layer. This is very beneficial for dry or very dry skins as it will reduce the irritation and help to smooth the skin while it reduces the flaking. It also works as a moisturiser which means that it can attract the humidity of the skin from the environment. This makes it great for greasy skins as it will not obstruct the pores neither increase the levels of grease in the skin allowing the hydration without a greasy feeling. Suitable for all types of skin.

MODE OF USE:

Spread the cream all over the face with circular movements and in an ascending way from the centre towards the outside as it is with this little massage that we help to fight against the gravity effect while we keep our skin taut.

You will get the skin of a film star!
