

ROLL-ON DEODORANT

With Aloe Vera

The Exialoe deodorant has **50% of Aloe Vera**.

It has a long-lasting protection, so it offers a natural perspiration offering an effective protection and neutralising bad smells without irritating the skin.

It is soft and protects the skin from external aggressions being ideal for sensitive skins.

QUALITIES

- It avoids the obstruction of the pores of the armpits which allows to naturally flow the elimination of toxins and wastes.
- It is unisex.
- It has a bactericide action, so it inhibits the growth of bacteria which cause bad smell and reduces the concentration of bacteria lodged in the cutaneous area of the armpit.
- Its fresh fragrance masks the smell of the transpiration.
- It is 0% Aluminium and 0% Parabens.
- It has a Roll-on head, so as it does not use a spray, so we avoid passing toxic gases collaborating with the environment.

MODE OF USE:

The deodorant should be applied on dry skin with the aim to properly penetrate in the sweat glands of the armpits.

Apply from the middle of the armpit to outside in all directions till it has fully covered the armpit.

You should shake it before using it, so the Roll-on permeates and correctly slides.

You will love its pleasant, fresh, and energising smell!

50 ml container (ref.1715)
