

SOLAR MILK SPF 30

With Aloe Vera

It is a proved fact that the effect of the sun in our organism has beneficial effect. However, the abuse of sunbaths without precaution can produce the contrary effect, producing serious injuries on the skin apart from favouring the dehydration, loss of elasticity, spots, and ageing. With the aim of preventing these harmful effects, it is particularly important the use of cosmetics that have filters against **UVA and UVB** solar radiations.

Our **SOLAR MILK SPF 30** allows us to enjoy the benefits of the sun in a safe way. It has chemical filters (non-NANO) that provide to it the right protection against ultraviolet solar radiation both UVA and UVB but favouring the **protection** of the skin and the **tan** in an **even and safe way**. This can be achieved thanks to the active ingredients and the combination of oils Jojoba, Avocado, Musk Rose, Carrot, Sunflower, Wheat germ, Beta carotenes, natural Vitamin E and our Aloe Vera juice that strengthens its qualities.

Besides, it adds the novelty of **not using preservatives**. The use of the new hydrant components avoids having to use preservatives which increases the quality of this solar milk.

- It is ideal for people with sensitive skin, dermatitis and it does not damage the environment.
- Thanks to its waterproof effect, it is water resistant.
- It does not have nanoparticles, parabens, or preservatives.

ACTIVE INGREDIENTS

Barbadensis Aloe Vera: It works by **regenerating** the injuries caused by the excess of solar radiation on the skin, providing **hydration** on dry and irritated skins. It has a powerful **healing** action.

Carrot Oil: It favours the formation of new cells by increasing blood flow. It also increases **elasticity and the nourishment** of the skin and it is a **tan accelerator**.

Sunflower Oil: It has a high **hydrant and antioxidant** power, it is also extraordinarily rich in Vitamin E.

Jojoba Oil: It works as emollient forming a film on the skin, it helps to avoid the elimination of water, which it favours its **hydration**.

Avocado Oil: Thanks to its emollient activity, it forms a film on the skin, avoiding the elimination of water and **favouring its hydration**, which has been used even to treat very dry and damaged skins. It helps to delay the appearance of wrinkles and even to diffuse or to **smooth** the already existent **wrinkles**.

Musk Rose Oil: It helps to **reduce the damage** that the sun can produce in the skin by smoothing wrinkles and expression lines and photoaging, it is also a natural generator of **collagen**, which **nourishes** and **hydrates** the skin, keeping it **soft** and **luminous**. It helps to regenerate the tissues and it also softens spots that can be produced by the sun.

Wheat Germ: Rich in essential fatty acids and Vitamin E, it helps to form a **protective film** that avoids dehydration and prevents the appearance of wrinkles.

MODE OF USE:

Use a small amount spreading it on the skin. Continue applying it till covering all the areas of your body that are exposed to the sun. **Apply before leaving home or before sun exposure.**

The external film and duration can vary depending on the type or colour of the skin, time of the day, the area where we are and the amount that we apply.

We recommend applying it frequently, especially after swimming, sweating or towel drying.

Protect yourself safely and enjoy the benefits of the Sun!
