

# SALUD ACTIVA PACK

## COMPOSED BY:

### 1.-CUMINALOE

Cuminaloe is a food supplement in capsules which main component is Curcuma that has a powerful antioxidant action, it helps to prevent hepatic, renal, cardiovascular, and neurodegenerative problems, it has anti-inflammatory action and antitumour qualities. It helps in the treatment of diabetes and cataracts.

It also strengthens the immune system and works as a digestive tonic avoiding dyspepsia. It is an effective anxiolytic and anti-depressant, it also helps with the protection and regeneration of neurons so it can be used in cases of mental deterioration.

### 2.-MUNACTIVE-10

Munactive-10 is a liquid food supplement which due to the synergy of its 10 components it has important beneficial effects for our organism as it works as a blood alkalinising, anti-inflammatory and as a powerful antioxidant that helps to avoid the formation of free radicals and of degenerative diseases that they can cause.

It is **Antitumour**, as its polyphenols avoid the formation of free radicals responsible of the creation and development of the tumours, favouring the selective death of carcinogenic cells without affecting healthy ones.

It also favours the **Cardiovascular System**, as it decreases the levels of cholesterol, it prevents and helps to treat cardiac disorders, it works as regulator of the blood pressure, it improves blood circulation at the brain level (which reduces dizziness, vertigo, and memory loss disorders), it also helps at the peripheric level. And at the **Nervous System**, by helping the transmission of the nervous impulse and works as neuroprotector, which makes it useful in Parkinson, Alzheimer disorders, etc.

### 3.-ALOE VERA JUICE

It comes from organic plantations in Tampico (Mexico). Packaged by the prestigious company Aloe Corp. Through a patented process known as MAP, it is cold stabilised for the preservation of all its qualities, all the ALOIN is eliminated and it is subjected to a selective enzymatic hydrolysis to triple the qualities of the native gel, among them highlight:

- Its anti-inflammatory and analgesic action.
- Its bacteriostatic, bactericide and antiviral action.
- Its antioxidant and antitumour action.
- Its anti-ulcerous, healing, and dermal regenerative action.

Besides numerous testimonies, scientific works and clinic-therapeutic follow ups support the remarkable beneficial effects that the daily intake of Aloe Vera juice exercises in treatments of gastric ulcers, constipation, ulcerous colitis, infectious diseases but especially for being the ideal vehicle to transport the components which is associated with.
