Sunflower Oil with natural Vitamin E: Acts as an antioxidant to protect the skin from damage caused by free radicals. It also works as an emollient that can moisturize dry skin by forming an occlusive layer that retains moisture in the skin.

Niacinamide: It is a derivative of vitamin B3 that has antioxidant properties, protects the skin from free radicals and prevents premature aging of the skin. It is known for its regenerating and soothing effect on the skin. It regulates sebum production, helps to mattify the T-zone and helps pores to close and minimise them.
