

ANTIAGING FACIAL TREATMENT

With Aloe Vera

The Exialoe **Antiaging Facial Mask** is an extraordinary last generation peel-off mask with **Alginates, Acerola and Vitamin C**.

The shade and luminosity of our complexion is affected by stress, a not very balanced diet, the environmental pollution, or the lack of sleeping hours therefore, it loses vitality and elasticity, in these cases the skin requires an extra dose of **hydration, luminosity, and regeneration**, to give back a **young and even aspect** including to the most devitalised faces.

The Exialoe antiaging mask contributes to **tighten** and give **elasticity** to the skin, thanks to that, it strengthens the collagen fibres obtaining therefore a **lifting effect**. It also has great hydrant capacity due to the numerous trace-elements that it has.

QUALITIES

Alginates: They promote the **collagen** and provide **elasticity** to the complexion. They are **restructuring** and **eliminate toxins and impurities**. They have **anti-wrinkle** effect, they are **nourishing** and have great power against the action of free radicals. They eliminate dryness and flaking.

Acerola: This fruit is known due to its high level of Vitamin C which is 80 times more powerful than oranges. It is rich in flavonoids, vitamin A, vitamins from the B group such as B1 and B6. It also has minerals such as phosphorus, iron, potassium, magnesium, and calcium. The acerola has **toning** and **stimulant** qualities which reduce dilated pores. It helps us to stimulate the collagen synthesis and relieve stress, exhaustion and fatigue states leaving a feeling of **softness and freshness**.

Vitamin C: Due to its high content in Vitamin C (apart from the one that the acerola has) confers to it **antioxidant qualities** that make the peel-off mask to be an ideal **refreshing and antiaging**, which fights against the visible signs of the early cutaneous aging and that keeps the elasticity of the skin. Your complexion will be visibly more **luminous, hydrated and rejuvenated**.

Not tested on animals and paraben free.

MODE OF USE:

1. Dose the content of one sachet of mask in powder in a bowl.
2. Add 95 ml of the antiaging toning or failing this 90 ml. of water.
3. Mix energetically with a utensil or with your fingers till it emulsifies leaving an even texture. Instantly apply it on your face and neck as a cream (avoiding the eye and lips contour) and leave it to work for 15 minutes. Dedicate this waiting time to yourself, to relax, read a book, listen to music while you taste a relaxing drink.
4. Once the indicated time is over and that the mask has dried, peel it off at once. You will see how easy it comes out and without any effort as if it was rubber!
5. Apply a bit of tonic with the help of a cotton to eliminate possible wastes and to tonify your complexion.

Enjoy the softness of a hydrated, rejuvenated, and luminous face!

2 sachets 30 g + Tonic 200 ml (ref.1965)
2 sachets of masks 30 g (ref.1966)
Cleansing tonic 200 ml (ref.1967)
