

VASELINE

With Aloe oil

The Exialoe **Vaseline** has **Aloe Vera Oil, Cocoa Butter, Shea Butter and Carnauba Wax**, which is known as the queen of the waxes, all of them provide a good protection and softness to the lips, protecting them from the sun and cold weather, providing them a light glow.

ACTIVE INGREDIENTS

Carnauba wax: It forms a protective film against the external harmful agents which helps with the protection of the area of the skin where it is applied providing a shine.

Shea butter: It has a great power of **hydration** and nourishment which improves the elasticity of the skin while it **repairs** and **regenerates** it thanks to its content in Vitamin F. Besides, it is an excellent healing and effective agent against burns and scars.

Besides, it protects us from the sun and prevents against the possible solar burns as it covers the skin with an invisible film. It also protects us from the cold weather, it is very effective to avoid the cold weather or humidity in hands and lips.

Cocoa butter: It has been used for centuries in the skin care. It has great wetting qualities, so it retains humidity in the skin, and it is an excellent hydrant agent. It is a **source of Vitamin E** and **antioxidants**, which make of it a great protector and regenerator.

Aloe Vera oil: It has healing, regenerative and hydrant qualities. It is an **anti-inflammatory** which reduces inflammation from the harmed areas. Its daily use hydrates and **softens the skin** working as an excellent **cell regenerator**. Due to its high penetration power, it is a **powerful healer**. It eliminates dead cells of the skin, and it favours the health of the tissues.

MODE OF USE:

Lips: Apply the vaseline several times during the day on the area to treat.

It is also recommendable to apply it before going to bed so the product can hydrate and protect your lips during the day.

💡 Apart from a good hydration, if you exfoliate your lips once a week you will see how soft and attractive your lips will look!

Regenerate: It is ideal to apply on skin cracks as well as on marks or stretch marks and tattoos as it helps to regenerate the skin of those areas.

Athletes: It can be used to protect areas prone to abrasions as it can be in the case of athletes and to avoid abrasions due to footwear, protections, etc.

Eyelashes: Apply it at night-time on your eyelashes to strengthen them, avoid their fall and therefore, to look denser and longer.

Hair: When you feel that your hair tips start to feel dry, apply a little bit of vaseline, and spread it thoroughly.

Tin of 20 ml (ref.1195)
