

VITALOVE

Made from vegetal extracts, vitamin C and zinc.

Natural food supplement, for both **man** and **woman**, that thanks to the synergy between its 11 vegetal components plus zinc and Vitamin C, allow to improve the reactions of the body to the natural sexual impulses which together with the production of nitric oxide (increases the blood flow, vasodilation, and oxygenation of the organs) and due to its high bioavailability will achieve a powerful sexual response.

QUALITIES OF THE ACTIVE INGREDIENTS

1.-**Liboost** (Damiana): It helps to improve **sexual potency** and frigidity by being a powerful vasodilator that helps to wake up the **desire** and to keep the physical strength during the sexual act. It works in the nerve centres that stimulate erection, improving the feelings and also the number of sperm cells and their quality. Besides, it helps to regulate menstruations and contribute to the **physical and psychic well-being**.

2.-**Maca** (Lepidium meyenii): It has alkaloids that improve **fertility**, help to reduce **stress, tiredness** and increase the sexual desire to improve sexual relations. In women it improves the symptoms of **menopause, menstruation**, and polycystic ovaries.

3.-**Cordyceps sinensis**: It is an invigorating for the body that increases the **libido**. With antioxidant action that improves cholesterol and protects the kidneys, the liver, and the cardiovascular system. It has **aphrodisiac** qualities, and it combats fertility disorders.

4.-**RedNite** (Beetroot): Induces to the release of nitric oxide that improves blood flow, vasodilation, and erection, improving **sexual potency, erectile dysfunction, and frigidity**. It helps to oxygenate the muscles and regarding the **brain**, it improves the learning ability, concentration, and memory.

5.-**L-Arginine**: Pioneer of the nitric oxide that improves sexual potency and combats **erectile dysfunction** by increasing vasodilation and blood flow in the man as well as in the woman achieving a better lubrication and **sensitivity**. It has aphrodisiac effect. It contributes to the **physical, mental, and emotional well-being**. It helps in sports by reducing fatigue and improving **recovery, resistance, and muscular development**.

6.-**Ginseng**: Source of **energy** (it releases nitric oxide) that combats erectile dysfunction, it increases sensitivity and stimulates sexual appetite, improving the quality of sexual relations.

7.-**Muira puama**: It improves blood flow in the pelvic area due to the nitric oxide which favours erection helping to **enjoy** better intimate **relations**. It increases the production of **sexual hormones** in both sexes, increasing **libido** and providing **energy**.

8.-**Tribulus terrestris** (Thistle): It improves desire, arousal, **lubrication**, and the **orgasm** both in man and woman. It favours fertility by increasing the number and mobility of sperm cells. It improves **mood** and menopause disorders.

9.-**Ginkgo**: Antioxidant activity that lengthens the average life of the **nitric oxide** essential for the erection. It favours the increase of **testosterone**.

10.-**Zinc**: It helps to keep a normal production of **sexual hormones** in **both sexes** favouring **fertility and sexual performance**.

11.-**Bioperine** (Piper Nigrum): It has an aphrodisiac effect with vasodilator action that favours the erection. Increases the bioavailability of the active ingredients enhancing its activity together with the **Aloe Vera** and the **Vitamin C**.
